Course on the Mechanics of Structures (MoS CES) is held during the second (summer) semester of the Second Degree (M.Sc.) studies at the Faculty of Civil Engineering in the amount of lectures – 30 hours, project – 15 hours.

1. Lectures and project meetings
   1.1 Lectures and project meetings are carried out according to the second semester schedule. Students attend the meetings according to the regulations set by the Dean.
   1.2 Attendance at the lectures is strongly recommended. Attendance at the project meetings are controlled. Absence from three project meetings may result in dropping the student from the course roster.
   1.3 Students are obliged to pass the scheduled test and to complete and defend the homework. Dates related to the scheduled test and project are shown below.
   1.4 The grade for the project part of the course is assessed as an average of the test grade and the homework grade rounded off to 0.5.
   1.5 Final grades for the tutorial/project part of the MoS CES course in the academic year 2016/2017 remain valid until the last day of the winter exam session in the academic year 2017/2018.
   1.6 Final grades for the tutorial/project part of the MoS CES course in academic years 2014/2015 and 2015/2016 remain valid until the the last day of the winter exam session in the academic year 2017/2018. Grades obtained in previous academic years are expired.

2. Examination
   2.1 Examination dates are set by the Dean.
   2.2 The examination on MoS CES is open for all students who have the valid final degree for the project part of the MoS CES course entered in the student’s record book (“indeks”).
   2.3 Examination consists of two parts: written and oral. Student’s own lecture notes are allowed during the written part of the exam. It is obligatory to take the oral part of the exam on a date appointed after the written part. In case of failing in the oral part student has to retake the exam as a whole.
   2.4 The exam is an individual work of a student. In case of confirmed cheating, e.g. copying from another student’s work or using the crib notes, the exam is automatically marked as “not passed”.
   2.5 Students are allowed to take examinations within the period of validity of final grades for the tutorial/project part of the course on MoS CES. If the exam is not passed during this time, it is necessary to repeat the course as a whole.

3. Grades
   The overall grade for the course is assessed after the oral exam as an average of a project grade and an exam grade rounded off to 0.5. The final grade for the course is entered in the “indeks” by the lecturer.

4. Final provisions
   Other issues unmentioned in these Regulations should abide by the Academic Regulations of the Warsaw University of Technology
